RESEARCH

HARVARD UNIVERSITY DATA SCIENCE INITIATIVE

| Postdoctoral Fellow
September 2019 – present | Cambridge, Massachusetts, USA
Working with **Francesca Dominici** and **Tyler VanderWeele** to expose and ameliorate weaknesses in causal analysis techniques for ecological data and test the performance of such methods in detecting multiple causal influences in dynamic, nonlinear systems. Applying causal analysis methods to well-studied ecological systems using intuitive model frameworks to encourage wider examination, modification and utilization of causal analysis techniques for ecological data.

AUBURN UNIVERSITY DEPT. OF BIOLOGICAL SCIENCES

| NSF Graduate Research Fellow
May 2015 – August 2019 | Auburn, Alabama, USA
Worked with **Prof F. Stephen Dobson** to develop statistical methods for ecological data. Improved and applied complex statistical techniques to fisheries data to explain interactions and quantify trends in fish population dynamics.

NORWEGIAN INSTITUTE FOR NATURE RESEARCH

| Visiting Graduate Research Fellow
August 2017 – February 2018 | Tromsø, Norway
Conducted original research on the effects of climate change on semi-domesticated reindeer in Norway.

MASAMU ADVANCED STUDY INSTITUTE (MASI) AND WORKSHOPS IN MATHEMATICAL SCIENCES

| Researcher
November 22 – December 1, 2019 | Blantyre, Malawi
November 16 – 25, 2018 | Palapye, Botswana
November 17 – 26, 2017 | Arusha, Tanzania
November 21 – 29, 2015 | Windhoek, Namibia
November 22 – 30, 2014 | Victoria Falls, Zimbabwe
Working with members of the Auburn University Department of Mathematics and Statistics to further research in statistics and mathematical biology in southern Africa.

EXPERIENCE

AUBURN UNIVERSITY | Graduate Teaching Assistant

August 2013 – May 2015 | May 2018 – August 2019 | Auburn, Alabama, USA
